OLYMPIC

DESIGN

INTRODUCTION

Olympic Design architectural products combine classic design and the latest in hot-wire technology to bring new dimensions to any project. Shapes are made from Expanded Polystyrene (EPS) foam and covered with a polyurethane hardcoat. There are many textured finishes available.

The shapes in this catalog are only a few samples. Using our computerized design and cutting equipment we are able create any idea you might have. Custom shapes are our specialty.

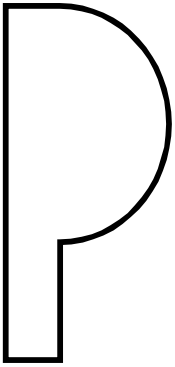

- Samples available on request**
- Delivery available**
- EPS densities of 1.0 lb./cu. Ft(standard), 1.25, 1.5, or 2.0**
- Free quotes**
